Explanatory Notes:

- *(a)* Wholly owned subsidiary of MLI.
- *(b)* Acquired subsidiaries in 2008 but have not yet started commercial operations as of June 30, 2012.
- *(c)* In March 2011, the Company acquired 59% ownership in SPI. On June 30, 2012, the Company held a 42.48% share in SHDI and a 61.13% share in EELHI. However, since SHDI and EELHI in turn own 8% and 33% of SPI, respectively, this results to an additional indirect ownership of 23.5%. As a result, the Company owns SPI by 82.45%.
- *(d)* On various dates in 2011, the Company acquired an additional 12.75% ownership in EELHI, thereby making EELHI a subsidiary of the Company. As of June 30, 2012, the Company's ownership in EELHI stands at 61.13%.
- *(e)* The company held 51% in MCPI. In addition, EELHI and MREI, both subsidiaries of the company, each has indirect ownership from MCPI by 15.55% and 7.21% shares, respectively thru GPMAI, which resulted to a total of 73.76% shares from MCPI.
- *(f)* MBPHI was incorporated in October 2011 and had just started its commercial operations on June 2012. MBPHI is also 50% owned by TIHGI, thereby increasing the Company's ownership to 55%. TIHGI is 10% owned by the Company.
- *(g)* MREI was incorporated in 2007. MREI owns 60% of TDI as of June 30, 2012 resulting in the Company's indirect interest of 31% of TDI.
- *(h)* PIPI was incorporated in 2002 and acquired by the Company in 2006; has not yet started commercial operations as of June 30, 2012.
- *(i)* In November 2007, MREI acquired 100% ownership in GPMAI which resulted in the Company's indirect interest of 51% as of December 31, 2007. In 2008, MREI's ownership in GPMAI decreased to 60%; it further decreased to 28.85% in 2010. GPMAI was consolidated starting 2007 up to 2009; in 2010, it was deconsolidated and treated as an associate of the Group. As of June 30, 2012, EELHI has a 51.92% ownership in GPMAI bringing the Company's indirect ownership to 46.45%. Consequently, GPMAI became a subsidiary of the Company through EELHI, its intermediate parent company.
- *(j)* TDI was incorporated in 2006 and is owned by MREI at 60%. In this regard, the Company has indirect interest in TDI of 31%.
- *(k)* In February 2009, RHGI acquired 44.34% ownership in AGPL, which resulted in the Company's indirect interest of 44.34% as of December 31, 2009. In October 2010, AGPL issued additional shares of stock which resulted in the decrease in RHGI's ownership in AGPL to 39.44%. AGPL is considered as an associate due to the Company's significant influence, but not control, on AGPL.
- *(l)* TIHGI was incorporated in 2003 and started commercial operations in August 2009. In 2008, the Company acquired 10% ownership in TIHGI through a share swap agreement. In August 2010, the Company's investment in TIHGI was converted to 10.0 million common shares and 990.0 million preferred shares of TIHGI. Subsequently, in March 2012 and November 2010, TIHGI redeemed the 428.41 and 430.0 million preferred shares held by the Company, respectively. The conversion of common shares and the redemption of preferred shares did not change the Company's ownership in TIHGI. Although the Company's percentage ownership is only 10%, TIHGI was considered as an associate due to the Company's significant influence on TIHGI.
- *(m)* MGEI was registered with the Securities and Exchange Commission on March 14, 2011 and has not yet started commercial operations as of June 30, 2012.

Except for MCII, RHGI and AGPL, all the subsidiaries and associates were incorporated in the Philippines and operate within the country. MCII and AGPL were incorporated and operate in the Cayman Islands while RHGI was incorporated and operates in the British Virgin Islands.

The Company and its subsidiaries collectively, except for MGEI, PIPI, PPVI, SLI and SP, which are not yet in commercial operations as of June 30, 2012, are presently engaged in the real estate business, hotel operations and marketing services.

EELHI and SHDI are publicly listed companies in the Philippines.

Alliance Global Group, Inc. (AGI), a publicly listed company in the Philippines, is the Group's ultimate parent company.

The registered office of the Company, which is also its principal place of business, is located at 28th Floor, The World Centre Building, Sen. Gil Puyat Avenue, Makati City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation of Consolidated Financial Statements

These interim consolidated financial statements are for the six months ended June 30, 2012 and 2011. They have been prepared in accordance with PAS 34 *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with PFRS, and should be read in conjunction with the consolidated financial statements of the Group for the year ended December 31, 2011.

The preparation of interim consolidated financial statements in accordance with PFRS requires management to make judgments, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

These interim consolidated financial statements are presented in Philippine pesos, the Company's functional currency, and all values represent absolute amounts except when otherwise indicated.

2.2 Impact of New Standards, Amendments and Interpretations to Existing Standards

These interim consolidated financial statements have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year ended December 31, 2011 except for the adoption of

PFRS 13	:	Fair Value Measurement
IFRIC 15	:	Agreements for construction
PFRS 9	:	Financial Instruments: Classification

Below is a discussion of the possible impact of these accounting standards.

(i) PFRS 13, *Fair Value Measurement* (effective from January 1, 2013). This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across PFRS. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards. The Group is yet to assess the impact of this new standard.

(ii) Philippine Interpretation IFRIC 15, *Agreements for Construction of Real Estate*. This Philippine interpretation is based on IFRIC interpretation issued by the IASB in July 2008 effective for annual periods beginning on or after January 1, 2009. The adoption of this interpretation in the Philippines, however, was deferred by the FRSC and the Philippine Securities and Exchange Commission after giving due considerations on various application issues and the implication on this interpretation of the IASB's on-going revision of the Revenue Recognition standard. This interpretation provides guidance on how to determine whether an agreement for the construction of real estate is within the scope of PAS 11, *Construction Contracts*, or PAS 18, *Revenue*, and accordingly, when revenue from the construction should be recognized. The main expected change in practice is a shift from recognizing revenue using the percentage of completion method (i.e., as a construction progresses, by reference to the stage of completion of the development) to recognizing revenue upon completion or after delivery. The Company is currently evaluating the impact of this interpretation on its financial statements in preparation for its adoption when this becomes mandatorily effective in the Philippines.

(iii) PFRS 9, Financial Instruments: Classification and Measurement (effective January 1, 2015). This is the first part of a new standard on classification and measurement of financial assets and financial liabilities that will replace PAS 39 in its entirety. This chapter deals with two measurement categories for financial assets: amortized cost and fair value. All equity instruments will be measured at fair value while debt instruments will be measured at amortized cost only if the entity is holding it to collect contractual cash flows which represent payment of principal and interest. The accounting for embedded derivatives in host contracts that are financial assets is simplified by removing the requirement to consider whether or not they are closely related, and, in most arrangements, does not require separation from the host contract.

For liabilities, the standard retains most of the PAS 39 requirements which include amortized cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The main change is that, in case where the fair value option is taken for financial liabilities, the part of fair value change due to an entity's own credit risk is recorded in other comprehensive income rather than in profit or loss, unless this creates an accounting mismatch.

To date, other chapters of PFRS 9 dealing with impairment methodology and hedge accounting are still being completed.

The Group does not expect to implement and adopt PFRS 9 until its effective date or until all chapters of this new standards have been published. Nevertheless, management is currently assessing the impact of PFRS 9 on the financial statements of the Group and is committed to conduct a comprehensive study of the potential impact of this standard to assess the impact of all changes.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The Group's consolidated financial statements prepared in accordance with PFRS require management to make judgments and estimates that affect amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under circumstances. Actual results may ultimately vary from these estimates.

3.1 Critical Judgments in Applying Accounting Policies

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the consolidated financial statements:

(a) *Impairment of Investment in AFS Securities*

The determination when an investment is other than temporarily impaired requires significant judgment. In making this judgment, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and in operational and financing cash flows.

(b) *Distinction Between Investment Property and Owner-Occupied Properties and Land for Future Development*

The Group determines whether a property qualifies as Investment Property. In making its judgment, the Group considers whether the property generates cash flows largely independently of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to property but also to other assets used in the production or supply process while Land for Future Development are properties intended solely for future development.

(c) Operating and Finance Leases

The Group has entered into various lease agreements. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risk and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets and liabilities.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Revenue Recognition Using the Percentage-of-Completion Method

The Group uses the percentage-of-completion method in accounting for its realized gross profit on real estate sales. The use of the percentage-of-completion method requires the Group to estimate the portion completed using relevant information such as costs incurred to date as a proportion of the total budgeted cost of the project and estimates by engineers and other experts.

(b) Determining Net Realizable Value of Residential and Condominium Units for Sale and Property Development Costs

In determining the net realizable value of residential and condominium units for sale and property development costs, management takes into account the most reliable evidence available at the times the estimates are made. The future realization of the carrying amounts of real estate for sale and property development costs is affected by price changes in the different market segments as well as the trends in the real estate industry. These are considered key sources of estimation and uncertainty and may cause significant adjustments to the Group's Residential and Condominium Units for Sale and Property Development Costs within the next financial year.

(c) Principal Assumptions for Management's Estimation of Fair Value

Investment Property is measured using the cost model. The fair value disclosed in the consolidated financial statements is determined by the Group using the discounted cash flows valuation technique since the information on current or recent prices of investment property is not available. The Group uses assumptions that are mainly based on market conditions existing at each reporting period, such as: the receipt of contractual rentals; expected future market rentals; void periods; maintenance requirements; and appropriate discount rates. These valuations are regularly compared to actual market yield data and actual transactions by the Group and those reported by the market.

The expected future market rentals are determined on the basis of current market rentals for similar properties in the same location and condition.

(d) Useful Lives of Property and Equipment and Investment Property

The Group estimates the useful lives of property and equipment and investment property based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment and investment property are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation of the useful lives of property and equipment and investment property is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in the factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment and investment property would increase recorded operating expenses and decrease non-current assets.

(e) Allowance for Impairment of Trade and Other Receivables

Allowance is made for specific and groups of accounts, where an objective evidence of impairment exists. The Group evaluates these accounts based on available facts and circumstances, including, but not limited to, the length of the Group's relationship with the customers, the customers' current credit status based on third party credit reports and known market forces, average age of accounts, collection experience and historical loss experience.

(f) Valuation of Financial Assets Other than Trade and Other Receivables

The Group carries certain financial assets at fair value, which requires the extensive use of accounting estimates and judgment. In cases when active market quotes are not available, fair value is determined by reference to the current market value of another instrument which is substantially the same or is calculated based on the expected cash flows of the underlying net base of the instrument. The amount of changes in fair value would differ had the Group utilized different valuation methods and assumptions. Any change in fair value of these financial assets and liabilities would affect profit and loss and equity.

(g) Realizable Amount of Deferred Tax Assets

The Group reviews its deferred tax assets at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

(h) Impairment of Non-financial Assets

Management believes that the assumptions used in the estimation of fair values reflected in the consolidated financial statements are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable values and any resulting impairment loss could have a material adverse effect on the results of operations.

(i) Post-employment Benefit

The determination of the Group's obligation and cost of post-employment benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. In accordance with PFRS, actual results that differ from the assumptions are accumulated and amortized over future periods and, therefore, generally affect the recognized expense and recorded obligation in such future periods.

4. SEGMENT INFORMATION

The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Group is engaged in the development of residential and office units including urban centers integrating office, residential and commercial components. The Real Estate segment pertains to the development and sale of residential and office developments. The Rental segment includes leasing of office and commercial spaces. The Hotel Operations segment relates to the management of hotel business operations. The Corporate and Others segment includes marketing services, general and corporate income and expense items. The Group generally accounts for intersegment sales and transfers as if the sales or transfers were to third parties at current market prices.

The following tables present revenue and profit information regarding industry segments for the six months ended June 30, 2012 and 2011 and certain asset and liability information regarding segments as at June 30, 2012 and December 31, 2011.

5. STOCK RIGHTS

As a result of the stock rights offering, 5,127,556,725 common shares were subscribed and issued on June 1, 2009. Of the total exercise price, 50% was paid as of May 31, 2009 and the remaining 50% shall be paid within one year from issue date. Unpaid subscriptions amounting to P2.3 million as of December 31, 2009 were fully paid by the subscriber in 2010. Relative to the issuance of pre-emptive stock rights, 4,102,045,380 stock warrants were issued and these will be exercisable beginning on the second year until five years from issue date. As of the second quarter of 2012, 25,857,642 stock warrants were exercised.

6. CASH DIVIDENDS

The details of the Company's cash dividend declarations, both for preferred and common shares, are as follows:

	2012
Declaration date/date of approval by BOD	**June 14, 2012**
Date of record	**June 29, 2012**
Date paid	**July 25, 2012**
Amounts declared and paid	**P 839,193,763**

7. EARNINGS PER SHARE

The calculation of the basic earnings per share is based on the profits attributable to ordinary shareholders divided by the weighted average number of shares in issue during the period.

Earnings per share amounts were computed as follows:

	June 30, 2012	June 30, 2011
Net income	**P 3,593,934,314**	P 5,140,950,536

8. COMMITMENTS AND CONTINGENCIES

There are commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group which are not reflected in the accompanying interim consolidated financial statements. The management of the Group is of the opinion, that losses, if any, from these items will not have any material effect on its consolidated financial statements.

In addition, there are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

9. SEASONAL FLUCTUATIONS

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Group.

10. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at FVTPL, available-for-sale securities, banks loans, bonds, trade receivables and payables which arise directly from the Group's business operation. The financial debts were issued to raise funds for the Group's capital expenditures.

The Group does not actively engage in the trading of financial assets for speculative purposes.

10.1 Foreign Currency Sensitivity

Most of the Group's transactions are carried out in Philippine peso, its functional currency. Exposures to currency exchange rates arise mainly from the Group's U.S. dollar-denominated cash and cash equivalents, and bonds which have been used to fund new projects.

Foreign currency denominated financial assets and liabilities, translated into Philippine peso at the closing rate are as follows:

	Unaudited June 30, 2012		Audited 2011	
	U.S. Dollars	**Pesos**	U.S. Dollars	Pesos
Financial assets	**$ 164,995,669**	**P 6,997,419,947**	$ 196,929,685	P 8,749,989,037
Financial liabilities	**(77,803,317)**	**(3,289,757,662)**	(195,759,303)	(8,599,314,640)
	$ 87,192,352	**P 3,707,662,285**	$ 1,170,382	P 150,674,397

The following table illustrates the sensitivity of the consolidated net result for the year and consolidated equity in regards to the Group's financial assets and financial liabilities and the U.S. dollar – Philippine peso exchange rate.

June 30, 2012:

Increase (decrease) in exchange rate	**Effect on consolidated** profit before tax	**Effect on** consolidated equity
P 1	P 87,192,352	P 61,034,646
(P 1)	(87,192,352)	(61,034,646)

December 31, 2011:

Increase (decrease) in exchange rate	Effect on consolidated profit before tax	Effect on consolidated equity
P 1	P 1,170,382	P 819,267
(P 1)	(1,170,382)	(819,267)

Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's currency risk.

10.2 Interest Rate Sensitivity

The Group interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. The Group maintains a debt portfolio unit of both fixed and floating interest rates. These long-term borrowings and all other financial assets and liabilities are subject to variable interest rates.

The following table illustrates the sensitivity of the consolidated net result for the year and consolidated equity to a reasonably possible change in interest rates of +1% and –1% in June 30, 2012 and 2011. The calculations are based on the Group's financial instruments held at each reporting date. All other variables are held constant.

	(Unaudited) **June 30, 2012**		(Audited) December 2011	
	+1%	**-1%**	+1%	-1%
Consolidated net results for the period/year	**(P 7,143,144)**	**P 7,143,144**	(P 17,638,794)	P 17,638,794
Consolidated equity	**(5,000,200)**	**5,000,200**	(12,347,156)	12,347,156

10.3 Credit Risk

Generally, the Group's credit risk is attributable to trade receivables, rental receivables and other financial assets. The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant proportion of sales, advance payments are received to mitigate credit risk.

10.4 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week, as well as on the basis of a rolling 30-day projection. Long-term needs for a 6-month and one-year period are identified monthly.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

As at June 30, 2012 and December 31, 2011, the Group's financial liabilities have contractual maturities which are presented below.

	June 30, 2012 (Unaudited)

The above contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the reporting dates.

EXHIBIT 6

Management's Discussion and Analysis of Results of Operations and Financial Condition

Results of Operations

(Based on Financial Statements adopted in accordance with the Philippine Financial Reporting Standards)

Review of June 30, 2012 versus June 30, 2011

During the second quarter of 2012, the consolidated net income amounted to Php 3.69 billion while for the same period of 2011 net income amounted to Php 3.21 billion net of the Php 1.95 billion non-recurring gain from sale of investment in available-for-sale. This posted an increase of 14.80% year-on-year without the non-recurring gain from sale of investment in available-for-sale. Consolidated total revenues is composed of real estate sales, rental income, hotel income, and other revenues.

Development. Among product portfolios, the bulk of generated consolidated revenues derived from the sale of condominium units and residential lots amounting to Php 9.34 billion in 2012 compared to Php 8.48 billion in 2011, an increase of 10.18%. The Group's registered sales mostly came from the following projects: Eastwood Le Grand, One Eastwood Avenue, 8 Forbes Town Road, Mckinley Hill - Tuscany, The Venice Luxury Residences, Newport City, Manhattan Heights, Greenbelt Madisons and Two Central.

Leasing. Rental income contributed 14.63% to the consolidated revenue and amounted to Php 2.26 billion compared to Php 1.63 billion reflected last year second quarter, a 38.51% increase. Contributing to the growth are the escalation and completion of additional leasing properties and increase in demand for office space.

Hotel Operations. The Group's hotel operations posted an amount of Php 222 million in second quarter 2012, an increase of 25.99%, from Php 176 million in second quarter 2011. The increase is primarily due to the rise in the number of hotel rooms and hotel occupancy rates.

In general, the increase in cost and expenses by 10.94% from Php 10.59 billion in second quarter 2011 to Php 11.74 billion in second quarter 2012 was due mainly to the increase in recognized real estate sales, as well as aggressive marketing activities and increase in other administrative and corporate overhead expenses. Income tax expense in second quarter 2012 amounting to Php 1.20 billion resulted to a 28.70% increase from second quarter 2011 reported amount of Php 929 million due to higher taxable income.

There were no seasonal aspects that had a material effect on the financial condition or financial performance of the Group. Neither were there any trends, events or uncertainties that have had or that are reasonably expected to have a material impact on net sales or revenues or income from continuing operations. The Group is not aware of events that will cause material change in the relationship between costs and revenues.

There are no significant elements of income or loss that did not arise from the Group's continuing operations.

Financial Condition

The Group maintains a prudent financial policy as it engages to a more competitive and challenging environment. The Group's Statement of Financial Position reflects stable financial growth. Total resources amounted to Php 136.09 billion posted an increase of 5.50% compared to Php129.00 billion as of December 31, 2011.

Cash and cash equivalents decreased by 4.04% from Php 30.32 billion in 2011 to Php 29.10 billion in 2012. An increase of 15.73 % from its current and non-current trade and other receivables – Php 43.27 billion as of June 30, 2012 compared to Php 37.39 billion as of December 31, 2011, was due to higher sales for the period. An increase by 4.07% from Php 19.50 billion in 2011 to Php 20.29 billion in 2012 in residential and condominium units for sale pertains to additional construction cost attributable to on-going projects. Property development costs decreased by 9.57% from last 2011 amounting to Php 8.75 billion to Php 7.92 billion in 2012.

The company shows steady liquid position by having current assets amounting to Php74.69 billion in 2012 with a decrease of 3.83% from December 31, 2011 balance of Php77.66 billion. On the other hand the group's current obligations stood at Php 27.65 billion which reflected an increase by 19.39% on the second quarter of 2012 as compared from year 2011 due to currently maturing financial commitments of the company. The group's investments in available-for-sale securities increased by 9.60%, from Php2.59 billion in 2011 to Php2.84 billion in 2012 due to market value changes of its different invested securities.

Trade and other payables amounted to Php8.72 billion and Php7.30 billion as of June 30, 2012 and December 2011, respectively. The rise of 19.44% was due to an increase in amounts payable to the Company's suppliers and contractors in relation to its real estate developments. Total customers' deposits as of June 30, 2012 amounted to Php5.38 billion compared to Php4.07 billion as of December 31, 2011 with a 32.37% increase due to aggressive marketing and pre-sales of various projects. The combined effect of current and non-current deferred income on real estate sales increased by 9.17% which amounted to Php5.74 billion as of June 30, 2012 compared to Php5.26 billion as of December 31, 2011 due to increase in unearned revenue.

The Interest-bearing loans and borrowings current and non-current amounted to Php 6.30 billion resulted a 12.09% decrease from previous year-end's Php7.17 billion mainly due to principal payments. Total other liabilities amounted to Php4.52 billion from Php4.43 billion as of June 30, 2012 and December 31, 2011, respectively.

Total Equity (including non-controlling interest) increased by 4.59% from Php72.77 billion as of December 31, 2011 to Php76.11 billion as of June 30, 2012.
