1. CORPORATE INFORMATION

Megaworld Corporation (the Company) was incorporated in the Philippines on August 24, 1989, primarily to engage in the development of large scale, mixed-use planned communities or townships that integrate residential, commercial, leisure and entertainment components. The Company is presently engaged in property-related activities such as project design, construction and property management. The Company's real estate portfolio includes residential condominium units, subdivision lots and townhouses, condominium-hotel projects as well as office projects and retail spaces. As a stock corporation, the Company's corporate life is 50 years.

All of the Company's common shares are listed at the Philippine Stock Exchange (PSE).

On June 27, 2017, the Philippine Securities and Exchange Commission (SEC) approved the change in the Company's registered office and principal place of business from 28th Floor, The World Centre, Sen. Gil Puyat Avenue, Makati City to 30th Floor, Alliance Global Tower, 36th Street cor. 11th Avenue, Uptown Bonifacio, Taguig City. The related approval from the Bureau of Internal Revenue (BIR) was obtained on July 17, 2017.

Alliance Global Group, Inc. (AGI or the Parent Company), also a publicly listed company in the Philippines, is the ultimate parent company of Megaworld Corporation and its subsidiaries (the Group). AGI is a holding company and is presently engaged in food and beverage, real estate development, quick-service restaurant, tourism-entertainment and gaming businesses. AGI's registered office, which is also its primary place of business, is located at the 7th Floor, 1880 Eastwood Avenue, Eastwood City CyberPark, 188 E. Rodriguez, Jr. Avenue, Bagumbayan, Quezon City.

There are no significant restrictions on the Company's ability to access or use the assets and settle the liabilities of the Group.

EELHI, GERI, and SHDI are publicly-listed companies in the Philippines.

2. BASIS OF PREPARATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The significant accounting policies that have been used in the preparation of these interim condensed consolidated financial statements are summarized in the succeeding pages. The policies have been consistently applied to all the periods presented, unless otherwise stated.

2.1 Basis of Preparation of Interim Condensed Consolidated Financial Statements

These interim condensed consolidated financial statements for the three months ended March 31, 2019 and 2018 have been prepared in accordance with Philippine Accounting Standard (PAS) 34, *Interim Financial Reporting*. They do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the audited consolidated financial statements of the Group as at and for the year ended December 31, 2018.

The preparation of interim condensed consolidated financial statements in accordance with Philippine Financial Reporting Standards (PFRS) requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

These interim condensed consolidated financial statements are presented in Philippine peso, the functional and presentation currency of the Group, and all values represent absolute amounts except when otherwise indicated.

2.2 Effect of Restatement to Comparative Financial Statements

The Group has applied PFRS 9, *Financial Instruments*, PFRS 15, *Revenue from Contracts with Customers*, and the related Philippine Interpretations Committee (PIC) Question & Answer(Q&A) No., 2018-12 which were applied retrospectively in accordance with PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*. Consequently, it restated the comparative interim condensed consolidated financial statements for the three months ended March 31, 2018. The effects of the adoption of PFRS 9, PFRS 15 & PIC Q&A 2018-12 on the interim consolidated statements of income, interim consolidated statement of changes in equity and interim consolidated statement of cash flows for the three months ended March 31, 2018 are shown below.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

In preparing the interim condensed consolidated financial statements, management undertakes a number of judgments, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgments, estimates and assumptions made by management, and will seldom equal the estimated results. The judgments, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty, were the same as those applied in the Group's last annual financial statements as at and for the year ended December 31, 2018.

The Group performed its annual impairment test of goodwill and other intangible assets with indefinite useful life at year end and when circumstances indicate the carrying value may be impaired. The Group's impairment test for goodwill arising from business combination and other intangible assets is based on value-in-use calculations. The Group considers the relationship between the market capitalization of the subsidiaries and its net book value, among other factors, when reviewing for indicators of impairment. The Group's management assessed that for the three months ended March 31, 2019 and as at December 31, 2018, goodwill arising from business combination and other intangible assets with indefinite useful life are not impaired.

4. SEGMENT INFORMATION

4.1 Business Segments

The Group's operating businesses are organized and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Group is engaged in the development of residential and office units including urban centers integrating office, residential and commercial components. The Real Estate segment pertains to the development and sale of residential and office developments. The Rental segment includes leasing of office and commercial spaces. The Hotel Operations segment relates to the management of hotel business operations.

The Corporate and Others segment includes business process outsourcing, educational, facilities provider, maintenance and property management operations, marketing services, general and corporate income and expense items. The Group generally accounts for intersegment sales and transfers as if the sales or transfers were to third parties at current market prices.

4.2 Segment Assets and Liabilities

Segment assets are allocated based on their physical location and use or direct association with a specific segment and they include all operating assets used by a segment and consist principally of operating cash and cash equivalents, receivables, real estate inventories, property and equipment, and investment properties, net of allowances and provisions. Similar to segment assets, segment liabilities are also allocated based on their use or direct association with a specific segment. Segment liabilities include all operating liabilities and consist principally of accounts, wages, taxes currently payable and accrued liabilities.

4.3 Intersegment Transactions

Segment revenues, expenses and performance include sales and purchases between business segments. Such sales and purchases are eliminated in consolidation.

4.4 Analysis of Segment Information

The following tables present revenue and profit information regarding industry segments for the three months ended March 31, 2019 and 2018 and certain asset and liability information regarding segments as at March 31, 2019 and 2018.

6. COMMITMENTS AND CONTINGENCIES

There are commitments, guarantees and contingent liabilities that arise in the normal course of operations of the Group which are not reflected in the accompanying interim consolidated financial statements. The management of the Group is of the opinion, that losses, if any, from these items will not have any material effect on its consolidated financial statements.

In addition, there are no material off-balance sheet transactions, arrangements, obligations and other relationships of the Group with unconsolidated entities or other persons created during the reporting period.

7. SEASONAL FLUCTUATIONS

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Group.

8. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has various financial instruments such as cash and cash equivalents, financial assets at FVOIC, interest-bearing loans and borrowings, bonds payable, trade receivables and payables which arise directly from the Group's business operations. The financial liabilities were issued to raise funds for the Group's capital expenditures.

Exposure to currency, interest rate, credit, liquidity and equity risk arise in the ordinary course of the Group's business activities. The main objective of the Group's risk management is to identify, monitor, and minimize those risks and to provide cost with a degree of certainty.

The Group does not actively engage in the trading of financial assets for speculative purposes.

8.1 Foreign Currency Sensitivity

Most of the Group's transactions are carried out in Philippine peso, its functional currency. Exposures to currency exchange rates arise mainly from the Group's U.S. dollar-denominated cash and cash equivalents, loans and bonds payable which have been used to fund new projects and for general corporate purposes.

Exposures to foreign exchange rates vary during the period depending on the volume of overseas transactions and mainly affect consolidated profit or loss of the Group. There are no material exposures on foreign exchange rate that affect the Group's consolidated other comprehensive income (loss).

8.2 Interest Rate Sensitivity

The Group's interest risk management policy is to minimize interest rate cash flow risk exposures to changes in interest rates. The Group maintains a debt portfolio unit of both fixed and floating interest rates. Most long-term borrowings are subject to fixed interest rate while other financial assets are subject to variable interest rates.

The Group manages its interest risk by leveraging the fixed interest rate debt obligations over the floating interest rate debt obligations in its debt portfolio.

8.3 Credit Risk

The Group's credit risk is attributable to trade receivables, rental receivables and other financial assets. The Group maintains defined credit policies and continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporate this information into its credit risk controls. Where available at a reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties. In addition, for a significant proportion of sales, advance payments are received to mitigate credit risk.

8.4 Liquidity Risk

The Group manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week, as well as on the basis of a rolling 30-day projection. Long-term needs for a nine-month and a one-year period are identified monthly.

The Group maintains cash to meet its liquidity requirements for up to 60-day periods. Excess cash are invested in time deposits or short-term marketable securities. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

8.5 Other Price Risk Sensitivity

The Group's market price risk arises from its financial assets at FVOCI carried at fair value. It manages its risk arising from changes in market price by monitoring the changes in the market price of the investments.

The investments in listed equity securities are considered long-term strategic investments. In accordance with the Group's policies, no specific hedging activities are undertaken in relation to these investments. The investments are continuously monitored and voting rights arising from these equity instruments are utilized in the Group's favor.

9.2 Fair Value Hierarchy

The Group uses the following hierarchy level in determining the fair values that will be disclosed for its financial instruments.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity can access at the measurement date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and,
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement. Except for Php30.63 million financial assets at FVOCI categorized in Level 3, all other financial assets at FVOCI are categorized in Level 1.

For assets and liabilities that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.
